

## **NOTICE TO ELECTRICAL CONTRACTORS**

February 26, 2007

### **REQUESTS FOR INSPECTIONS**

#### **Two Days Notice**

In communities where the Electrical Inspectors have an office, contractors must give two working days notice for an inspection.

This policy has been in place for years and will be followed for all future inspections. The policy allows our inspectors to make better use of their time and schedules.

#### **Final Inspections**

All contractors should also give two days notice of all permits that are ready for final inspection, so that we may log the request and make arrangements to do this inspection.

Please direct any questions to the Electrical Inspection office.
